# OUR PROGRAMME

Our School Holidays Programme was a resounding success when we introduced it in 2016, with a number of aspiring senior students from several Auckland schools getting their first taste in the world of Beauty and Fashion Makeup. Not only did they have a fantastic experience and learn some valuable skills, some even planted the seed for an incredible career path as a professional makeup artist.

The programme is divided into 3 parts. Each part encompasses specific topics and skills which we recommend to be taken all together. It is an integrated programme - completing all three parts will give students a more complete and balanced learning experience, and will introduce them to all the main branches of the makeup industry. However each part can be considered separately depending on a student's area of interest. But students taking all three parts (April, July & October) will gain a massive 26 credits!
